It is the responsibility of the Property owner to locate property line

The box above represents your lot. The dimensions of your lot, width and depth are required to be shown on the layout. Show the location of existing buildings on the lot, the footage from the four property lines, the location of the proposed fence with the footage from the four property lines for the new construction.

**REQUIREMENTS**

All vertical and/or horizontal supports and cross members MUST face the interior of the lot. All portions of the fence MUST be constructed of the same or harmonious material or system. Fence height shall be measured from the established grade to the top of most section of the fence. All fencing shall be subject to the provisions of all public utility easements. It is the responsibility of the property owner to check subdivision regulations.

I certify the above information is true and correct, the drawing is true and accurate and I have identified my property line.
